Education

Johns Hopkins University BACHELOR OF ARTS, CHEMISTRY

Baltimore, MD · Spring 2023 (expected)

Focus on Organic Chemistry
Advised by Prof. John Dayton Tovar

Johns Hopkins University BACHELOR OF ARTS, APPLIED MATHEMATICS & STATISTICS

Baltimore, MD · Spring 2023 (expected)

Focus on Statistics and Statistical Learning
Advised by Prof. Yanxun Xu

Awards & Honors

Life Design Lab Grant Recipient, Funded to pursue research at the Massachusetts General Hospital studying idiopathic pulmonary fibrosis.

Johns Hopkins University · Spring 2021

Dean's List, Awarded to students for academic excellence.

Johns Hopkins University · All Semesters

Loneragan Award, Award given to the two graduating seniors who best exemplify altruism, character, dignity, integrity, and loyalty; the most prestigious award given by the school.

Dover-Sherborn High School · Spring 2019

Professional Development

Research Intern, Platform for the Accelerated Realization, Analysis, and Discovery of Interface Materials

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Summer 2022 - Present

- Advanced strategies for real-time data analysis toward achieving autonomous experimental control.
- Used statistical analysis and machine learning to develop an algorithm and programmatic implementation for automatic signal structure and spectral peak detection.
- Implemented methods for live streaming experimental data using Apache Kafka.

Undergraduate Research Assistant, Cheng Lab

Baltimore, MD

DEPARTMENT OF CHEMISTRY, JOHNS HOPKINS UNIVERSITY

Summer 2022 - Present

- Studied high-level computational and theoretical methods in quantum chemistry.
- Used coupled-cluster theory to calculate polarizability of molecular and ionic diatoms.
- Collaborated with experimentalists to confirm results at ultracold temperatures.

Chemistry Student Safety Committee

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Fall 2021 - Present

- Addressed safety hazards across departmental facilities and individual labs.
- Attended trainings for development of proper scientific lab safety, management, and conduct.

Research Intern, Medoff Lab

Boston, MA

MASSACHUSETTS GENERAL HOSPITAL

Summer 2021

- Studied response of airway epithelium cells to lung inflammation and scarring for an increased understanding of idiopathic pulmonary fibrosis.
- Created, maintained, and monitored tissue cocultures grown from basal and immune cells of a murine sample.
- Developed algorithm to parse the spatial distribution of cultured cells using a Delaunay triangulation and visualize the inflammation patterning.

Undergraduate Research Assistant, Tovar Lab

Baltimore, MD

DEPARTMENT OF CHEMISTRY, JOHNS HOPKINS UNIVERSITY

Winter 2020 - Present

- Studied non-planar, hybrid radial and linear aromatic systems containing cycloparaphenylenes and cycloparaphenylene derivatives.
- Synthesized novel organic compounds and characterized materials using primarily NMR and mass spectrometry.
- Experienced with high-powered computational methods using the Maryland Advanced Research and Computing Center; calculated optimized geometries and molecular orbital energies using Gaussian16 and density functional theory.
- Developed Python program to automate optimized geometry calculations in Gaussian16 with the Maryland Computing Center.

Teaching

Teaching Assistant

Baltimore, MD

DEPARTMENT OF CHEMISTRY, JOHNS HOPKINS UNIVERSITY

Spring 2022 - Present

- Aided teaching Introductory and Intermediate Organic Chemistry Laboratory Courses.
- Taught rudimentary techniques in organic chemistry synthesis and characterization.
- Facilitated and instructed data processing and analysis across a diverse range of analytical techniques.
- Responsible for proper preparation and disposal of reagents within all experiments.
- Graded lab reports and exams.

Personal Tutor

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Fall 2020 - Present

- Volunteered with fourth-graders in Baltimore public elementary schools for individualized tutoring in math, reading, and writing through the Tutorial Project as a part of the Center for Social Concern; worked collaboratively with parents of tutees to ensure personalized aid.
- Worked with undergraduate students in one-on-one tutoring sessions for courses regarding Linear Algebra, Multivariate Calculus, Organic Chemistry, and Introductory Data Science.

PILOT Leader

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Fall 2020 - Present

- Provided academic support to students in peer-led tutoring sessions within numerous classes, including Multivariate Calculus and Organic Chemistry.
- Responsible for creating problem sets and answer keys each week for all tutoring sessions within the course.
- Organized and led meetings to familiarize other tutors with material of course.
- Coordinated with course instructor to plan and facilitate review sessions and office hours outside of those offered by professor and teaching assistants.

Volunteering

Best Buddies Foundation

Various · Spring 2019 - Present

- Volunteered with people with intellectual and developmental disabilities in a variety of community events.
- Raised money for organization through events including fundraising auctions, road races, and bike rides.

Pine Street Inn Homeless Shelter

Boston, MA · Fall 2018 - Spring 2019

- Helped prepare and serve breakfast to people experiencing homelessness.
- Cleaned dining area and silverware prior to and following meal.
- Organized transport for team of student volunteers.

Exceptional Citizens' Week at Camp Fatima

Gilman Iron Works, NH · Summer 2015 - Present

- Volunteered at week-long camp for people with intellectual and developmental disabilities.
- Worked one-on-one with person with disability and provided individualized support for sleeping, eating, bathing, and playing around the camp.
- Member of team which organized and served meals for entire camp and prepared camp grounds for activities including arts and crafts, fairs, parades, and theater productions.

Extracurricular Activities

First-Year Mentor

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Summer 2020 - Spring 2021

- Supported incoming Hopkins students with year-round peer-to-peer support to ensure successful transition between high school and college; responsible for orienting and mentoring a cohort of new students during their first year.
- Trained to provide guidance and support around range of topics including academic support, student clubs and organizations, and campus resources.
- Incited discussion about inclusivity, diversity, and maintaining proper mental health in school while fostering personal relationships between students.

Best Buddies Club

Baltimore, MD

JOHNS HOPKINS UNIVERSITY

Fall 2019 - Present

- Traveled to and spent time with students at Claremont School in Baltimore which specializes in providing educational services to students with moderate to profound intellectual and developmental disabilities.
- Promoted friendships among Claremont and Hopkins students through activities including sports, arts and crafts, and gardening.

Presentations

1. **Sam Dawley**, David Elbert, Tyrel McQueen, and Apurva Mehta. “Streaming by Design for Materials Characterization.” Presented at: Cornell University. 2022 Aug 10; Ithaca, NY.

Skills & Tools

Experienced Git, \LaTeX , Python | Organic chemistry synthesis and characterization | Microsoft Powerpoint, Excel, Word

Basic C++, MATLAB | Computational chemistry methods in coupled-cluster and density functional theory, CFOUR, Gaussian16
